Department of Ecology  
Solid Waste and Financial Assistance Program

FOR ECOLOGY USE ONLY

Application # \_\_\_\_\_

**Application for Tools & Trucks**  
**2003-2005**

**Submit only one application for all requests for use in Community Litter Cleanup Program projects.**

Recipient Name Generic County Public Works		
Amount of Funds Requested \$21,000	Project Start Date July 1, 2003	Project End Date June 30, 2005
<b>Tools and/or Equipment to Be Purchased</b>	<b>Estimated Cost for Each Item</b>	
Used crew cab (4 door) ¾ ton pickup truck	\$18,000	
Electric winch for pickup truck	\$1,500	
Hydraulic lift tailgate for pickup truck	\$1,500	
<p><b>What will each item be used for and how will each item benefit the Community Litter Cleanup Program? Be as specific as possible.</b></p> <p>We need a five- to six-person crew cab pickup truck to be dedicated to the litter and illegal dumping program. Currently we are constantly looking for a spare truck to use, and it usually has to be taken away from an existing operations and maintenance work crew. If we had a dedicated vehicle, we would be able to better schedule our crews and accomplish much more work. We would expect to pick up litter 5 days per week, rather than the 2-4 we are currently averaging.</p> <p>We would also like to obtain a winch for retrieving bulky items such as appliances or furniture that have been illegally dumped down road embankments or creek banks.</p> <p>In addition we would like to have a hydraulic-lift tailgate for the truck. This would enable us to more easily load bulky items which have been illegally dumped.</p>
